Dear Kevin:

*WOW! WOW! WOW! What a performance you gave last Thursday evening at our Cystinosis Fundraiser. Your music was wonderful and extraordinarily moving. Your words and the emotions they conveyed, however, were even deeper and more meaningful. You truly captured the feeling of the evening and gave us so much in return!*

*I feel we were extraordinarily blessed to have you join us on Thursday evening to tell your story, and to also convey to our guests how important it is to have hope and to be willing to make a wish and believe in it. Natalie's Wish has compelled us to work very hard to endeavor to find a cure for Cystinosis. In that journey, we have been blessed because of our opportunity to meet people like you who have great warmth, extraordinary love for their fellow human beings and a willingness to give back substantially to the community.*

*Thank you very much for sharing your story with us, your music and your thoughts about hope and wishes. We were all moved by your presence and your message. Please accept our heartfelt thanks for everything you did to make our event such a success.*

Sincerely,

  
Geoffrey L. Stack
